DIM SGS+

Support for Hormone Balance and Detoxification*

Biote Nutraceuticals have been carefully formulated to promote healthy aging, and enhance overall wellness. Backed by more than 80 years of science and medical data, these products have been selected for superior bioavailability and can help ensure a complete and personalized approach towards meeting your health goals.

DIM SGS+ is an ideal combination of diindolylmethane (DIM), sulforaphane (SGS), and pomegranate extract. This combination of ingredients helps stimulate a more efficient neutralization/disposal pathway for estrogen.

DIM SGS+ is specially formulated to assist the body with keeping estrogen and testosterone hormone activity in healthy balance.

Its three ingredients work together to promote antioxidant and other detoxification functions. In addition, DIM may have favorable effects supporting breast, uterine, cervical, and prostate health.
