

MEGA MUCOSA™

MegaMucosa™ is a comprehensive intestinal mucosal support supplement formulated to REBUILD a healthy mucosal barrier and support healthy immune function. MegaMucosa™ contains clinically tested dairy-free immunoglobulins, precise concentrations of amino acids, and a state-of-the-art flavobiotic to support microbial diversity and a healthy mucosal immune system.**

- **Complete mucosal support formulated to help maintain a healthy gut mucosal barrier****
- **Supports healthy intestinal barrier function****
- **Supports gut microbial diversity****
- **Supports short-chain fatty acid production****

MegaMucosa™: Foundational Support for the Mucosal Barrier

Forward-thinking practitioners understand that supporting the strengthening and rebuilding of the gut mucosal barrier is a foundational aspect of gut health. The gut lining's mucin layer is critical to immune system function. This layer has an extensive surface area teeming with 70% of the immune function-supportive cells in the body, which interact continually with whole-body immune sites.

MegaMucosa™ contains dairy-free immunoglobulins, four critical amino acids, and citrus bioflavonoids clinically tested to support gut microbial diversity and a healthy mucosal immune system. Immunoglobulins support a vast number of immune system functions. When combined with the amino acids L-proline, L-serine, L-cysteine, and L-threonine, they maintain healthy digestive function and support rebuilding the mucin layer and intestinal barrier. This cutting-edge supplement also contains state-of-the-art citrus bioflavonoids, clinically shown to support microbial diversity, gut barrier integrity, and short-chain fatty acid (SCFA) production.**

Key Features

- Contains amino acids shown to support mucin 2 production and maintain mucin synthesis in the gut mucosal barrier**
- MegaMucosa™'s immunoglobulins have been studied in 10 published human intestinal health clinical trials**
- Contains MicrobiomeX®, a high quality, standardized citrus extract rich in polyphenols that supports digestive health, immune function, gut microbial diversity, and gut barrier function. May also support a significant increase in SCFA composition.**

SUPPLEMENT FACTS

Serving Size: 6 capsules
Servings Per Container: 30

Amount Per Serving	% Daily Value*
Calories 15	
Protein	1 g 2%
Serum-derived immunoglobulin concentrate (ImmunoLin®)	1 g †
Immunoglobulin G (IgG)	450 mg †
L-Proline	1 g †
L-Serine	700 mg †
L-Threonine	600 mg †
Citrus bioflavonoids (MicrobiomeX®) 500 mg	†
<i>Citrus sinensis, Citrus paradisi</i> whole fruit extract	
L-Cysteine	80mg †

* The % Daily Value (DV) tells you how much a nutrient in a serving of food contributes to a daily diet. 2,000 calories a day is used for general nutrition advice.
† Daily values not established.

OTHER INGREDIENTS: Vegetable capsule (cellulose and water), cellulose, magnesium stearate.

SUGGESTED USE: AGES 4+

Start with 3 capsules daily with or without a meal for one week, then increase to 6 capsules daily with or without a meal as tolerated, or as directed by your healthcare practitioner. Children under 4 years of age, please consult with your healthcare practitioner.

SUPPLEMENT FACTS

Serving Size: 4.8 grams (1 scoop)
Servings Per Container: 30

Amount Per Serving	% Daily Value*
Calories 15	
Sodium	20 mg <1%
Total Carbohydrate	1 g <1%
Protein	1 g 2%
Serum-derived immunoglobulin concentrate (ImmunoLin®)	1 g †
Immunoglobulin G (IgG)	450 mg †
L-Proline	1 g †
L-Serine	700 mg †
L-Threonine	600 mg †
Citrus bioflavonoids (MicrobiomeX®) 500 mg	†

OTHER INGREDIENTS: Natural berry acai flavor, citric acid, stevia, malic acid, natural flavor, rebudioside M.

SUGGESTED USE: AGES 4+

Start with ½ scoop daily with or without food for 1 week, then increase to 1 scoop daily, or as directed by your healthcare practitioner. Mix powder with 16 oz or more of liquid or food as desired. Powder dissolves best in room temperature liquids. For use by children under 4 years of age, please consult with your healthcare practitioner.

Total Gut Restoration | At A Glance

The three fundamental aspects of gut health include its microbial population, physical structures, and immune function. A healthy microbiome relies upon all three. Gut-supporting practices that only address one area typically don't restore a dysfunctional gut. The Microbiome Labs Total Gut Restoration system is uniquely designed to support gut restoration by targeting all three fundamental aspects of gut health.

MegaMucosa™ is the first mucosal support supplement of its kind. Formulated with immunoglobulins, key amino acids, and citrus bioflavonoids, it may support the REBUILD of a healthy mucosal barrier. MegaMucosa™ has been clinically shown to support healthy microbial diversity, gut barrier function, and immune function in the intestinal mucosa.
