

MEGA SporeBiotic™

MegaSporeBiotic™ is one of the most recognized names in the probiotic industry. It is Microbiome Labs' flagship probiotic product—a pioneering and trend-setting all-spore formula designed to support gut microbiome reconditioning.

MegaSporeBiotic™ is a 100% spore-based, broad-spectrum probiotic clinically tested to support and maintain gut microbial diversity, healthy levels of commensal gut bacterial species, and intestinal barrier function. This unique blend of spore-based probiotic species is designed to maintain survivability, efficacy, and potency throughout the digestive process. MegaSporeBiotic™ doesn't require refrigeration or a high colony-forming unit (CFU) count to be effective—unlike non-spore-forming strains (*Bifidobacterium* or *Lactobacillus spp.*), which are typically vulnerable to destruction at room temperature and in the digestive tract.**

MegaSporeBiotic™ Benefits & Features**

- Supports gut microbial diversity
- Supports healthy gut barrier and immune function
- Maintains levels of key, health-supportive, commensal gut bacteria
- Unique spore-based *Bacillus* probiotic blend supports gut reconditioning
- Designed to maintain efficacy, and survivability throughout the digestive process
- Supports keystone bacterial species that produce valuable short-chain fatty acid (SCFAs) metabolites, including butyrate
- Researched-backed by multiple clinical studies
- Shelf-stable, no refrigeration needed

MegaSporeBiotic™: The Pioneering Spore-Based Probiotic

The gut microbiome is a dynamic ecosystem easily disrupted by environmental and lifestyle factors. When it is imbalanced—in a state of "dysbiosis"—localized digestive discomforts, gut health challenges, and body-wide issues may occur. An imbalanced microbial environment can negatively impact individuals' daily lives. Microbiome Labs designed MegaSporeBiotic™ to support reconditioning an imbalanced microbial gut environment.

MegaSporeBiotic™ contains five *Bacillus* spore-forming bacterial strains. Spore-formers surround themselves with a protective coat, so they are naturally designed to navigate the harsh environment of the digestive system. They arrive in the gut, transition from spore to active form, and provide practical reconditioning support. MegaSporeBiotic™ can support increased microbial diversity, maintain healthy gut barrier and immune function, and support keystone bacterial species that produce valuable short-chain fatty acid (SCFAs) metabolites, including butyrate. SCFAs support many diverse physiological functions necessary for optimal health and well-being.

MegaSporeBiotic™ is the first, truly innovative, multi-spore-based probiotic. Supported by extensive scientific validation and developed to address prevalent digestive health concerns, MegaSporeBiotic™ is backed by over 9 published studies, with multiple, ongoing studies.**

SUPPLEMENT FACTS

Serving Size 2 Capsules
Servings Per Container 30

Amount Per Serving	% Daily Value
Proprietary Probiotic Blend	295 mg † 4 Billion CFU
<i>Bacillus indicus</i> , HU36™	†
<i>Bacillus licheniformis</i> (SL-307)	†
<i>Bacillus clausii</i> (SC-109)	†
<i>Bacillus subtilis</i> , HU58™	†
<i>Bacillus coagulans</i> (SC-208)	†
† Daily values not established.	

OTHER INGREDIENTS: Cellulose, vegetable capsule (cellulose and water).

SUGGESTED USE: Ages 5+

Week 1: 1 capsule every other day

Week 2: 1 capsule per day

Week 3: 2 capsules per day

Children under 5 years of age, please consult with your healthcare practitioner.

Total Gut Restoration | At A Glance

The three fundamental aspects of gut health include its microbial population, physical structures, and immune function. A healthy microbiome relies upon all three. Gut-supporting practices that only address one area typically don't restore a dysfunctional gut. The Microbiome Labs Total Gut Restoration system is uniquely designed to support gut restoration by targeting all three fundamental aspects of gut health.**

MEGA
SporeBiotic™

MegaSporeBiotic™ is the first 100% spore-based, broad-spectrum probiotic whose support is clinically shown to RECONDITION the gut. This pioneering 100% spore-based formula supports microbial diversity and key, health-maintaining, commensal gut bacteria. MegaSporeBiotic™ boasts a shelf-stable, requires no refrigeration, and maintains efficacy and survivability during the digestive process.**
