

NUTRACEUTICALS

Biote Nutraceuticals have been carefully formulated to support bioidentical hormone replacement therapy (BHRT), promote healthy aging, and enhance overall wellness. Backed by more than 80 years of science and medical data, these clinical-grade products have been selected for superior bioavailability and can help ensure a complete and personalized approach to meet your health goals.

METHYL FACTORS+

5-MTHF & Active B Vitamins for Methylation Support

Promotes Normal Methylation[†]

Supports a Healthy Heart[†]

Encourages Energy & Focus[†]

METHYL FACTORS+ provides five essential methylation nutrients—5-MTHF (methyl folate), vitamin B6, vitamin B2, vitamin B12, and betaine. Methylation is a biochemical process that impacts your body's ability to regulate cardiovascular, neurological, reproductive, and detoxification systems.

METHYL FACTORS+ also promotes homocysteine balance. Homocysteine is a common amino acid in your blood that influences your cardiovascular health. All ingredients offered in METHYL FACTORS+ come in their most bioavailable forms, meaning your body will be able to absorb and use what it needs more efficiently.
