OMEGA 3 + CoQ10

EPA/DHA Fish Oil with CoQ10

Supports Cardiovascular Health ‡

Encourages Normal Cholesterol Levels ‡

Promotes Cognitive Health ‡

OMEGA 3 + CoQ10 combines EPA and DHA from fish oil with CoQ10 to support heart and brain health. Our DHA and EPA are extracted from the purest fish oil sources available through molecular distillation to ensure the removal of cholesterol and contaminants, including PCBs and heavy metals.

Coenzyme Q10 (CoQ10) is a powerful antioxidant that occurs naturally in the body. CoQ10 is stored in the mitochondria—your cell's power source—where one of its primary functions is to generate energy for the cells. Because your body's natural production of CoQ10 tends to decrease as you age, combining CoQ10 with pure fish oil helps your body absorb and use CoQ10 better.
