

VAGINAL BALANCE

with scientifically tested **ASTARTE™** and **LA-5®** bacterial strains plus **Cranberry Powder**

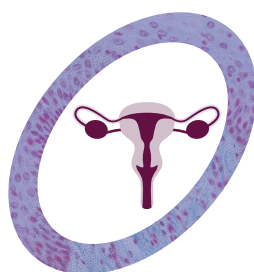

Scientific research confirms that proper vaginal microflora balance promotes optimal health. A vaginal microbiome with an overabundance of opportunistic, anaerobic bacteria is linked to vaginal discomfort, poor reproductive outcomes, sexually transmitted pathogen colonization, and more.

The vaginal microbiome's beneficial *Lactobacillus* bacteria residents maintain pH balance and discourage yeast and nonbeneficial bacteria growth, promoting vaginal and overall health.

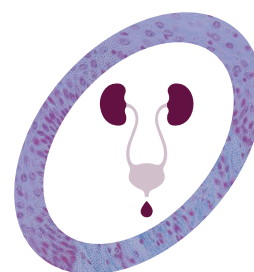

Microbiome Labs' Vaginal Balance contains the scientifically researched and clinically studied **ASTARTE™** and **LA-5®** bacterial strains, which belong to the *Lactobacillus* genus present in a healthy vaginal microbiome.**

Designed to Support Women of All Ages & Life Stages

**5B CFU ASTARTE™
.5B CFU LA-5®
Vaginal, Immune, & Digestive Health Support****

500mg Cranberry Powder Urinary Tract Health Support**

Clinically tested ingredients in a proprietary blend

- 5B CFU **ASTARTE™** (*L. crispatus* (LBV 88™), *L. rhamnosus* (LBV 96™), *L. gasseri* (LBV 150N™), *L. jensenii* (LBV 116™))
- .5B CFU **LA-5®** (*Lactobacillus acidophilus* LA-5®)
- 500 mg **Cranberry Powder**
- 2 per day oral capsule
- 4-in-1 Support (Vaginal, Urinary Tract, Immune, Digestive)
- Relieves vaginal discomfort caused by bacterial and/or yeast imbalance.**
- No refrigeration required
- Non-GMO • Vegan • Free from 9 major allergens
- Available to healthcare practitioners and their patients (through provider referral) at microbiomelabs.com.
